# Mack Connect

Fleet Performance Portal

Mack Connect is your single source for performance data, location tracking, operational analytics, and diagnostic insights in a unified dashboard designed to simplify your operations and drive profitability.

**MACK**®

## Connect with the trusted data that drives productivity.

Available for Mack Class 8 vehicle owners, Mack Connect allows owners to track and manage data within a single hub for every Mack powered vehicle in their fleet.

### Track Performance

Use location data to monitor your Mack truck's position history and location in real time, optimize future routes, and identify points of interest like nearby dealerships.

### Increase Efficiency

Improve your operations by easily tracking fuel usage and visualizing operating parameters such as road speed settings across your entire fleet in a single hub.

### Maximize Uptime

Instantly access truck parameter and fault code information to address issues and get your vehicle back on the job quickly.

### Simplify Daily Operations

Mack Connect's integrated dashboard is your unified hub to monitor fleet data across a full suite of integrated truck features.

## Personalize your dashboard.

Mack Connect provides unprecedented visibility into vehicle safety, operating and connected services such as GuardDog® Connect and Over-the-Air Updates (OTA) to deliver actionable insights via integrated connectivity.

### On the Road

- Real-time GPS tracking
- Speed and fuel levels
- Location history
- Real-time traffic and truck restrictions
- Mack dealer locations and more
- Monitor ABS and stability events

### On the Job

- 24/7 vehicle monitoring
- View key metrics (such as idle time and time in top gear)
- Track engine hours and mileage
- Track truck and fleet MPG
- Monitor seat belt usage
- Support mobile mechanics

### Uptime Support

- View dealer locations
- Access GuardDog Connect fault information
- Retrieve detailed fault and repair instructions
